STUDENTS SATISFACTION SURVEY ANALYSIS REPORT

(2020-2021)

GOVT AUTONOMOUS COLLEGE, ROURKELA

The institute aims to offer the best possible environment and learning experience to the students. The positive relationship between student and academic environment has several benefits at all levels of an educational establishment. Students, teachers, parents and alumni play an important role in the evaluation, development and enhancement of the quality of this learning experience. The students are supposed to be the most important stakeholders of any educational system. The feedback collected from students helps the institution to evaluate its own standard and make changes as per requirements. The Feedback Process has put an emphasis on the need for involvement of students in the quality assurance of higher education. Student involvement requires that students should act as a collaborators rather than merely a passive receivers in teaching and learning process. Our institution ensures that students have a voice at various decisions making process, formulating learning and teaching practices. The student satisfaction survey is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive. Thus, our institution collects feedback from the students during a session. The IQAC cell of the college takes initiatives for feedback collection and analysis with the help of different department. Students of all the department of our college eagerly participated in the activity to share their opinion.
