

## CORE-X LIBRARY AND INFORMATION LITERACY

### LONG QUESTIONS:

1. What is information literacy, and why is it crucial in today's digital age?
2. Discuss the role of libraries in promoting information literacy among users.
3. Explain the steps involved in the information search process. How can individuals effectively locate and evaluate information sources?
4. Describe the concept of information need and how it drives the information-seeking behavior of individuals.
5. Examine the differences between traditional and digital information resources. How has the shift to digital impacted information literacy?
6. Discuss the importance of critical thinking skills in information literacy. How can individuals assess the credibility and reliability of information sources?
7. What is the role of ethical considerations in information literacy? How do plagiarism and copyright issues relate to information literacy education?
8. Explain the concept of authority in information sources. How can users determine the authority of an information provider or author?
9. Describe the principles of source evaluation, including the CRAAP (Currency, Relevance, Authority, Accuracy, Purpose) test. How does it help in assessing sources?
10. Discuss the concept of information fluency and how it goes beyond basic information literacy skills.
11. What is digital citizenship, and how does it relate to information literacy? How can individuals practice responsible online behavior?
12. Examine the role of libraries in teaching information literacy skills to different age groups, from children to senior citizens.
13. How do search engines work, and what strategies can individuals employ to conduct effective online searches?
14. Discuss the principles of citation and referencing in academic and research settings. Why is proper attribution important in information literacy?
15. Explain the concept of information overload and strategies to manage it effectively.
16. What is the role of social media in information dissemination and consumption? How can users critically assess information shared on social platforms?
17. Describe the significance of information literacy in the workplace. How can employees use information literacy skills to enhance their job performance?
18. Examine the impact of fake news and misinformation on society. How can information literacy education help combat these challenges?
19. Discuss the benefits and challenges of using open educational resources (OER) for information literacy instruction.
20. What is the role of information literacy in supporting lifelong learning and personal development?
21. Describe the concept of digital divide and its implications for information literacy. How can efforts be made to bridge this divide?

22. Explain the concept of information ethics. How do issues like data privacy and cybersecurity relate to information literacy?
23. Discuss the role of online libraries and digital repositories in information literacy initiatives. How do these resources support information access and research skills?
24. What is the significance of cultural competence in information literacy? How can libraries and educational institutions address cultural diversity in their information literacy programs?
25. Examine the relationship between media literacy and information literacy. How can individuals critically analyze media content for accuracy and bias?
26. Describe the role of technology in information literacy education. How can e-learning tools and online tutorials enhance information literacy instruction?
27. Discuss the impact of the COVID-19 pandemic on information literacy education. How did remote learning affect information literacy skills development?
28. What is the role of assessment in evaluating information literacy competencies? How can institutions measure the effectiveness of their information literacy programs?
29. Examine the challenges and opportunities of teaching information literacy in diverse educational settings, such as K-12 schools, universities, and public libraries.
30. What are the emerging trends in information literacy education, and how are they shaping the future of information literacy programs and initiatives?

### **SHORT QUESTIONS:**

1. What is information literacy?
2. Why is information literacy important in the digital age?
3. Define the term "information need."
4. How can libraries support information literacy initiatives?
5. Explain the concept of digital information sources.
6. What are the steps involved in the information search process?
7. How do critical thinking skills relate to information literacy?
8. What is the role of ethics in information literacy?
9. Define "authority" in the context of information sources.
10. What is the CRAAP test for source evaluation?
11. Explain the concept of information fluency.
12. How does digital citizenship connect with information literacy?
13. What are some strategies for effective online searches?
14. Why is proper citation important in information literacy?
15. Describe the challenges of information overload.
16. How can individuals critically assess information on social media?
17. What is the impact of misinformation and fake news on society?
18. How can information literacy benefit workplace performance?
19. What role can open educational resources (OER) play in information literacy education?
20. How does information literacy support lifelong learning?
21. Define the digital divide and its relevance to information literacy.
22. What are the ethical considerations in data privacy and cybersecurity?
23. Explain the concept of cultural competence in information literacy.

24. How does media literacy intersect with information literacy?
25. Describe the role of technology in information literacy education.
26. How did the COVID-19 pandemic affect information literacy education?
27. Why is assessment important in evaluating information literacy competencies?
28. How can libraries address cultural diversity in information literacy programs?
29. What is the relationship between information literacy and media literacy?
30. How can libraries and educational institutions bridge the digital divide?
31. Describe the significance of lifelong learning in information literacy.
32. What is the role of libraries in promoting digital literacy?
33. How can educators foster information literacy in K-12 schools?
34. Explain the concept of information ethics.
35. How can libraries support research skills development through information literacy?
36. Describe the role of media literacy in evaluating news sources.
37. What are the advantages of using e-learning tools in information literacy instruction?
38. How do online tutorials enhance information literacy education?
39. What are some strategies for addressing the challenges of remote information literacy instruction?
40. What are the emerging trends in information literacy education, and how are they shaping its future?
